WORLD LEADING PPE PRODUCTS

WHO WE ARE

- Sanitas Healthcare Ltd, a subsidiary of British Medical Group, is a global leader in the provisions and advancement of antimicrobial technology and medical devices spanning both the professional and consumer healthcare markets, distributed under the "PROTECT" brand worldwide.
- Customer portfolio includes the UK NHS, pharmacy retail chains (Boots, Lloyds etc), private healthcare markets and hospital trusts, plus various consumer brands and service providers across the travel, hospitality and event sectors.
- Sanitas medical products are currently registered across 30 countries. Additionally, Sanitas has registered and embedded more than 40 specific patents into the healthcare economy across 70 different countries.
- A robust end-to-end supply chain network allowing Sanitas to deliver products to the professional and consumer markets anywhere in the world via a dedicated partnership with DHL.

OUR SUCCESS

- Developed through cutting edge medical glove microbial technology research and testing to provide frontline medical professionals the peace of mind needed when confronted with the most harmful organisms.
- The resulting AntiMicrobial Glove (AMG) is commercialised in partnership with Hartalega (Malaysia), the world's largest producer of Nitrile gloves. Hartalega employs 7,500 people, produces 43 billion gloves per year and has annual sales in excess of £550 million.
- Innovators of the world's first facemark proven to kill Coronavirus, protected by a worldwide patent. These technologies have been developed to be low cost and readily integrated into existing products, enabling wide adoption and use across categories.
- In 2020 British Medical Group will turnover in excess of £200 million.

TYPE I MEDICAL FACE MASK

PRODUCT CODE:

PRT11120

DESCRIPTION:

Face mask with soft and strong elastic ear loops and nose clip to ensure proper fit. The mask has a low respiratory resistance and a high bacterial filtration efficiency. It is intended for use by health care professionals in operation rooms or other medical settings with similar hygiene requirements in order to minimise cross contamination. The working environment is protected against transmission.

SPECIFICATION:

Unit dimensions: 175x95mm | 3 layer - PP, PE, spandex | Blue | Soft ear loop

FEATURES:

Type I approved according to EN 14683:2019 | Bacteria filtering effectiveness >95% | Single use | Universal fit | Disposable

PACKING:

50 units per box | 40 boxes per carton | 2,000 units per carton

DIMENSIONS:

Box: 185x100x80mm | Carton: 520x390x340mm
